

Downdraft Tables

Backpanel Type

Complies with standards - Robust - Efficient - Ergonomic - High Protection - Adaptable

The backpanel extracts vapours, such as solvents, so the operator does not breathe them in. This is extremely useful when harmful substances are being used.

Key Points

Tailor made

Ergonomic so operators can work standing or sitting.

Quiet: less than 70 dB measured at the work surface.

Standard Features:

- Removable side panels
- Plywood work surface
- Removable shelving
- Variable number of shelves
- Removable hood
- Adjustable support legs
- Fully painted

Environmental protection

Personnel protection

Backpanel Types

APPLICATIONS:

- GASES
- AEROSOLS

ACTIVITIES:

cleaning, bonding, mixing, degreasing
Dissection, penetrant testing.

Features	Width 800	Width 1200	Width 1600	Width 2000
Overall Dimensions in mm (DxWxH)	800x800x500	800x1200x500	800x1600x500	800x2000x500
Power kW	variable	variable	variable	variable
Min. average speed m/s	0,5	0,5	0,5	0,5
DMin. Total Flow m ³ /h	720	1080	1440	1800

Options: Fan (on table or at the side), shelving (+ removable intermediate panels)
